

Increasing your church's missional impact

CCFS is currently funding over 45 church building projects and there are many more churches that require funding over the next 2 years. Projects include the recently completed Rosebud and Launceston Early Learning Centres, Bassendean Church of Christ and Devonport Church of Christ.

We need your support! Invest with CCFS or consider shifting your bank accounts and support mission.

CCFS is different to the bank you may be currently using, even if that's a community bank. Banks are profit driven and exist to provide returns to their shareholders. CCFS is missional and not-for-profit. Some banks provide community grants but did you know that by June 2022 CCFS will have provided grants back to the movement of almost \$1.0M.

So, imagine if your church could support mission and Kingdom growth at little or no cost by switching to CCFS. And with competitive rates and no transaction fees (other than third party charges) your church may come out front. Here are two options to consider:

1. Switch all your accounts to CCFS. With access to Australia Post's branch network via Bank@Post, BPAY, EFT, CCFS Online, cheque books and Visa Prepaid cards, using CCFS is more convenient than ever.
2. If switching all your accounts is not possible, consider opening a term investment, building fund account, missions account or Minister's Expense account. Whichever option you choose, you're supporting mission.

So, whether it's to help grow your church and its community, to fund your next development, for your own personal finances or to assist with your church-based enterprise, CCFS is ready to step you through the process.

Launceston Early Learning Centre

True North Church – Why we switched

True North Church is a large church in WA with campuses in Mullaloo, Merriwa and Perth. The church is led by the COCWA Chair and Senior Pastor Dean Groetzinger and he expresses why they switched to CCFS.

We moved our bank accounts from one of the Big Four to Churches of Christ Financial Services.

The simple reasons for doing this were:

1. **Common Mission** – CCFS is an organisation focussed on the same mission as us: to see God's church grow, thrive and flourish
2. **Aligned banking** – All our banking aligned in one place, where previously it hadn't been
3. **Less fees** – by shifting to CCFS we are able to pay significantly less on all kinds of fees

Quite simply, this move will allow us to better steward all that God has put in our hands to be used for his purpose in this world!

Shot of Inspiration

“ Commending his servant, the master replied, ‘You have done well, and proven yourself to be my loyal and trustworthy servant. Because you were faithful to manage a small sum, now I will put you in charge of much, much more. You will experience the delight of your master, who will say to you, “Enter into the joy of your Lord!” ’ ”

– Matthew 25:23 (TPT)

Helpful Hints – Electronic Statements

eStatements will always be emailed to the designated recipient. It's important for Treasurers to remember that should the designated recipient change, the eStatement details will also need to be updated via the portal.
